

Niflex[®] Nitrile Gloves

Why Niflex Nitrile Gloves?

Niflex Nitrile gloves are consistently the glove of choice for quality gloves. They are made with synthetic rubber and are a great alternative to latex gloves. These powder-free, heavy duty, disposable gloves are ambidextrous, textured and form fitting providing ideal comfort and protection all day.

Niflex gloves offer superior protection and are safe to use in industries such as: food service, automotive, medical, industrial, beauty, and pharmaceutical.
